

Believe early education

Our Philosophy

Our philosophy is more than just an expression of who we are, we strongly believe that it shapes our decision making and should be reflected in everything we say, everything we do and everything we are.

We believe that every child and every adult should have the opportunity to become the very best they can be regardless of how they started life and where their journey will take them. We value diversity and the richness that each individual brings to our service.

Underpinning our practices and decision making is a genuine respect for all participants and their contributions. We view children as competent contributors to their world and encourage and support them to be active participants.

We value the knowledge, passion and skills of our families, educators and others in our wider community and invite them to contribute to our service. We see members of each family as a child's most influential teachers and are proud to partner with them on each child's learning journey. We aim to be active in our community and ensure that we share with our children the elements that make our community unique and special.

Through our play-based approach and responsive practices, children are able to experience a world of security and inspiration, a place to dream, to be, to belong and to become and to believe that anything is possible!

We aim to support children to make choices that contribute to their own and others health, safety and wellbeing. We recognise the important role we play in supporting children in becoming responsible citizens and making choices which benefit the wider community. Together we believe we can create a love of nature and an understanding of the importance of environmental sustainability.

We believe that communication is the key to successful relationships, and we encourage all participants to express their ideas and needs respectfully. We value our educators and recognise them as the key to delivering outstanding education and care. We are committed to on-going learning and development and investing in our future leaders.
